Specification of Innovation Center

S.N.	Particular	Specification	Quantity	Rate	Total
1	Computer System	Processor: Intel Core i7 (latest generation) Memory: 16GB DDR4 RAM Graphics: 2GB Storage: 256GB SSD (primary) + 4TB HDD (secondary) Features: High-speed performance, expandable storage, suitable for multitasking and heavy applications	1		
2	Laptop	Processor: Intel Core i5 (latest generation) Memory: 16GB DDR4 RAM Storage: 256GB SSD Features: Lightweight, portable, long battery backup, Wi-Fi 6 support	2		
3	Acoustic Treatment	Bass traps, 2–4 inch acoustic panels (NRC ≥ 0.8), diffusers, optional vocal booth. Echo reduction, Balanced sound reflection, Improved recording quality	1		
	Digital Mixer	High-Capacity I/O, Premium Audio Engine, Tactile Workflow, Onboard DSP, Multitrack Recording	1		
4	Power Backup	3kVA / 2.7 kW power capacity Protects against outages & voltage fluctuations High input power factor correction (> 0.99) Automatic bypass for overload & faults User-friendly LCD display for monitoring Multiple communication ports (RS-232, USB) Quiet operation (< 50 dB) Compact size (397 x 145 x 220 mm)	1		
5	Sound System/Mic	Type: Condenser USB microphone or wireless lapel microphone, Portable PA system or classroom monitor speakers Polar Pattern: Cardioid (focuses on speaker's voice, reduces background noise) Connectivity: USB or wireless (Bluetooth/2.4GHz) Power Output: 50–100W (suitable for medium-sized classroom) Frequency Response: 50Hz – 18kHz (clear speech reproduction)	1		
6	Camera	Type: PTZ (Pan-Tilt-Zoom) 4K camera Resolution: 4K UHD video recording Features: Autofocus, HDMI output, remote PTZ control, suitable for lecture and event recording	1		
7	Projector	Brightness: Minimum 3,600 lumens Resolution: XGA or higher Features: HDMI connectivity, wireless projection support, long lamp life	1		

8	Printer	Type: Multi-function printer (MFP) Functions: Print, scan, copy Features: Duplex printing, wireless connectivity, high-speed output	1		
			Total amount without vat		
			13% vat		
			Total amount with vat		

The bidder shall be required to perform the following tasks after completion of the Innovation Center Setup.

1. The bidder shall complete installation, configuration, testing, and commissioning of the entire Innovation Center Setup system in fully operational condition.
2. The training shall be practical and hands-on in nature, including system operation, basic troubleshooting, and routine maintenance procedures.
3. After successful installation and setup, the bidder shall conduct at least one (1) hour of demo class and provide a recorded video of the session.
4. The bidder must attach the Original Manufacturer Authorization Letter (MAL).
5. All supplied equipment shall be brand new, genuine, and of high quality. Refurbished or used equipment shall not be accepted.
6. The bidder shall be responsible for all required installation accessories, cabling, mounting, integration, and configuration works.
7. During the warranty period, the bidder shall provide necessary technical support, maintenance, and after-sales service
